

CMS UK has teamed up with Air 5 Ltd to provide a range of Anti-theft and theft recovery solutions to prospective clients.

Air 5 Ltd was established in 2000 and has an impressive track record in assisting clients both in prevention of, and recovery of stolen assets. Air 5 Ltd provides a diverse range of solutions which can be used in a wide range of markets.

**ASSETtrack....**

**... Offers 24/7 piece of mind**

#### **THE PROBLEM....**

The **theft** of construction equipment (termed '**plant**') has been estimated to cost the UK between £600 million and £1 billion per year.

NFU Mutual, says: "We have certainly seen a sharp increase in farm thefts over recent years, Thefts of Tractors, trailers & quads are high on the agenda for any thief and are usually very accessible on most farms.

#### **HOW CAN YOU PROTECT YOUR EQUIPMENT...**

Little bigger than a packet of twenty Cigarettes, ASSETtrack provides a positive and cost-effective solution to aid in the safe recovery of stolen assets. Small and extremely robust, it is versatile and unlike most other vehicle tracking systems, has its own on-board power supply.

Even if the battery of the asset is disconnected, ASSETtrack will continue to operate, so that in the event of theft or tampering, the system will alert the monitoring station who will in turn alert the owner. The system is ideally suited for covert installations on to any item.

Because ASSETtrack is so flexible it has an important role to play in monitoring and recovering property such as caravans, motor homes, jet-skis, trailers, plant & machinery as well as vehicles.

- Professional Covert Installation for added security.
- Own internal power supply.
- No external aerial bringing increased security.
- Small, lightweight & robust for enhanced durability and increased applications.
- Europe Wide Coverage.(that includes the Republic of Ireland) for greater peace of mind.
- Nationwide recovery network.
- Cost effective solution.
